

## Fortune-Johnson LLC Established as Independent Firm

ATLANTA (June 2021) – Fortune-Johnson LLC, a premier multifamily housing contractor throughout the Southeast, has established themselves as an independently owned and operated company. The change comes after the firm’s recent separation from its parent company.

“Following our departure from Katerra, we are now 100% privately owned and financially autonomous,” says CEO and managing partner Brett Fortune. “We are excited to begin our journey as a new company with the same team our clients have known and trusted for decades.”

Fortune says the transition to full independence will bring the company’s Mid-Atlantic and Southeastern teams together under the Fortune-Johnson umbrella to strengthen the firm’s original territory in Georgia, North Carolina, South Carolina, and Virginia.

“We have retained our talented staff and are actively working with employees, clients and subcontractors to ensure a seamless transition,” says Fortune. “We are completing all of our active projects and jobs that were under construction when we were with Katerra,” he said. Recently, the firm broke ground on The Grove, a \$35 million multi-family development complex in Snellville, GA.

The Fortune Johnson name has been recognized in construction for 30 years and the creation of Fortune-Johnson, LLC as an independent company allows it to take advantage of the prior company’s founding principles while forging a new path forward. “This is the beginning of a new era for us,” Fortune says. “We will definitely continue to build on a strong foundation of trust, honesty, and integrity as we grow,” he said.
